

## Test Case : Recipe 27 | Health pricing table clarity | Desktop | OP-343

- **Platform:** Run only on desktop
- **Text and Font:** Font size and color should reflect the design. Website's default font family should be used.
- **Design Accuracy:**
  - The build should reflect the design
  - Each section of the benefits table should be in a collapsible accordion
  - The first section should be expanded by default
  - More than one section can be opened at once
  - Content can be pulled from the website
- **Responsiveness:**
  - Plan card should be displayed in 5 columns
  - As the screen size gets smaller, the cards should decrease in width
  - The accordion should expand if anywhere on the section heading is clicked
  - When expanded the down arrow of the accordion should change to an up arrow
  - If the heading is clicked again, the accordion should close and the up arrow should change as the down arrow
